On the table...

Introducing

ACT@BOARD®

the complete, multi-use
activity base for your
classroom – the table,
the activities and the
storage...

...in a range of sizes and
variety of activities.

The Experience...

The classroom is one of the most important social spaces other than the home, where young people spend a lot of time. It is important to provide a workspace that is accessible, comfortable, versatile and safe.

We supply schools and centres with Acteboard. It is proving to be an enormous success as it allows students –of all needs and abilities– to easily access and enjoy activities. It provides the means to involve them in an array of stimulating, multi-sensory experiences.

The experience of “working” at our Acteboard activity tables is second to none.

ACT@BOARD®

Made to be enjoyed.

The thinking...

Lots of serious thinking has gone into the development of Acteboard. It is the culmination of years working with students of all abilities to understand their needs; and liaising with teachers, therapists and parents.

Our investment in research and development is ongoing and our product development team is enthusiastic and knowledgeable. They are always on a quest to invent new and exciting activities.

ACT@BOARD®

We know that it is essential to have a table that is height-adjustable and easily accessible.

We know that stimulating activities are the key to keeping a student engrossed.

And we know it is “so good!” to have a storage solution which is tidy, safe and mobile.

ACT@BOARD®

A hive of activity...

When it comes to learning, the research is clear – children learn most effectively through play.

Sight, sound, smell, taste and touch...

When we learn, we rely on our senses to process information. The more we can employ our senses, the easier it is to learn something. Using multiple senses allows multiple cognitive connections with the concept.

Acteboard gives children the opportunity to learn effectively in this way. It provides all the equipment necessary, whether it's practical – like a sink to hold bubbly water, or “big, bigger and biggest” buckets to fill with sand– or explorational, like the *Discovery Pouch*, which can hold all sorts of tactile, scented surprises.

Play, have fun and learn!

Activate to educate.

ACT@BOARD®

...a neat solution.

the table...

(Choose your size.)

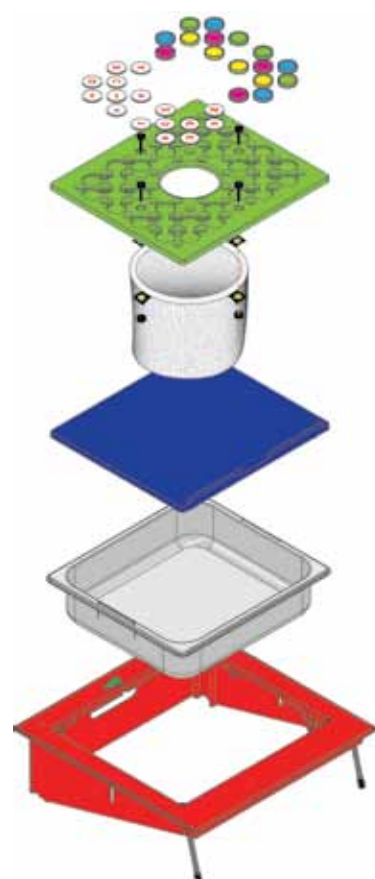

Acteboard tables come in 4 sizes –with variations– the Six-person table, the Four-person table, the Two-person table and the One-person table.

+ the Activities
(Starter Box)

Acteboard Activities: what an exciting box of tricks! – a flexible and inter-changable activity system, with an ever-expanding variety of activities.

The “**Starter Box**” comes with:

- A red base unit which slots into the cut-out hole in the table.
- Stainless steel basin with drop-down handles. There is a brush & dustpan set to go with this.
- Blue reading/ writing/ art board, which tilts at various angles.
- Green “Discovery” peg/ disc board, with “Discovery Pouch” which may be attached (with pack of black nuts & bolts x 4.)
- Sheet of laminated cardboard discs.
- Set of 100 plastic, multi-colour discs with 2 sheets of stickers.

Acteboard Quick-store Rack

Racks to store each Acteboard activity base.

Rack to store timber infill pieces.

Acteboard “Toast rack”

The “**Toast Rack**” is perfect for storing various boards for Acteboard Activities. The Tidy-away Trolley is designed to house up to four toast racks.

Acteboard Tidy-away Trolley

+ the Storage

6
